

GetGenome Newsletter

#024

March 2025

We are pleased to present the March 2025 edition of our monthly newsletter, providing a snapshot of GetGenome's progress and key highlights. Remember, you can find all our monthly newsletters here- <https://getgenome.net/network>. The main highlights this month include:

Early-career researchers, submit your abstract!

The GetGenome Microbial Genomics ECR Symposium will take place on 3rd July and you can participate. [Register for virtual attendance](#) and [submit an abstract](#) before the 3rd April deadline to express your desire to present at the event – a great opportunity for students, post-docs and other ECRs.

GetGenome's next Call for Projects- GGAfrica2025

The long awaited GGAfrica CFP will launch very soon and will be a key part of GetGenome activities through 2025. **We are keen to hear from you** if you'd like to contribute toward making GGAfrica2025 a huge success! CFPs rely on the amazing efforts of regional associates to disseminate the open-call. If you'd like to join the GGAfrica2025 committee, like [here](#) and [here](#), get in touch (getgenome@tsl.ac.uk).

GetGenome seminar series continues...register now!

Our seminar series continues to provide excellent opportunities, featuring excellent research in the genomics field. Do join us! You can register for upcoming events [here](#) or explore our library of recorded sessions [here](#) if you missed the live seminar.

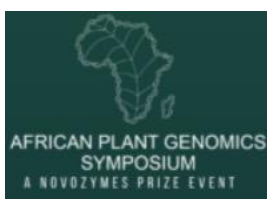

Our first Genome Announcement pre-print from GGLatAm2024

We were delighted to see the first pre-print article from GGLatAm2024, published within our [GetGenome Community](#) on Zenodo. Congratulations to Marilina, Ana Laura and the team on the genome announcement of various *Bacillus* strains isolated from soil displaying PGPR properties ([DOI: 10.5281/zenodo.14888915](https://doi.org/10.5281/zenodo.14888915)).

GetGenome featuring near and far

Looking forward, GetGenome is back on the road with visits to Nairobi, Kenya for the [African Plant Genomics Symposium](#) in April, followed by trips to the Khalifa Center for Genetic Engineering & Biotechnology, UAE in May and the Ecole Nationale Supérieure de Biotechnologie (ENSB), Algeria in June. As GetGenome reaches more researchers across the globe, it's great to see increased interest in our growing community, including in [local print media](#).
