GetGenome Newsletter

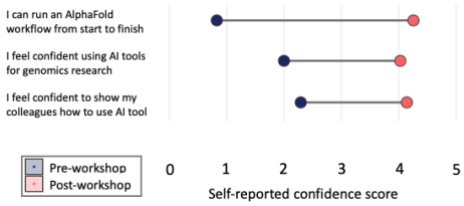
#042

October 2026

We are pleased to present the October 2026 edition of our monthly newsletter, providing a snapshot of GetGenome's progress and key highlights. You can find all our monthly newsletters here - https://getgenome.net/network. To stay up-to-date join our Mailing List, and follow us on social media (@GetGenome). The main highlights this month include:

Closing the AI gap for underserved researchers

GetGenome and The Sainsbury Laboratory ran two hands-on workshops to address inequitable access to AI tools in genomics research. You can read the workshop report on our Zenodo community page as well as the associated TSL article. Huge thank you to everyone that made these workshop possible including the amazing AI in Genomics Trainers pictured here alongside the participants and facilitators!



The GetGenome Training Wiki is live

To extend the reach and impact of our training we recently published our Training Wiki providing accessible resources to support researchers with their genomics and AI workflows. **Are you a tutor looking to integrate accessible training material into your lectures?** Get in touch at getgenome@tsl.ac.uk.

Road to Jeju open call closing soon

The 2nd Nov deadline to apply for the GetGenome Road To Jeju open call is fast approaching. #GGRoadToJeju will provide genomics support for research into plant-associated microorganisms. We've already received applications from 18 countries across five continents, reflecting the global interest in this opportunity.

The GetGenome brochure highlights the important work we do

This month we published the GetGenome brochure, offering a snapshot of some of the incredible work we've supported and the global network that has emerged. Download a copy and disseminate it within your networks.

We're proud of how far the GetGenome community has come and look forward to building on this work together. Thank you to everyone who has contributed to making this possible!
